WORKING EXPERIENCE

AI Engineer
ExtraRed s.r.l. · Pisa · January 2026 – Present
NLP, LLM, Agentic AI

AI Engineer
Helaglobe s.r.l. · Florence · September 2024 – December 2025
Computer Vision, NLP, LLM, Agentic AI

Intern
Consiglio Nazionale delle Ricerche · Pisa · September 2023 – May 2024
Computer Vision, Deep Learning

IT Support
S. Jacopo s.r.l. · Livorno · March 2018 – May 2024

ACADEMIC BACKGROUND

M.Sc. Artificial Intelligence & Data Engineering
Università degli Studi di Pisa · 2021 – 2024

B.Sc. Computer Engineering
Università degli Studi di Pisa · 2017 – 2021

AWARDS & COMPETITIONS

Best Project Built with ElevenLabs – Hacktoberfest Hack Day
GDG Pisa · Pisa · October 24, 2026
Won the ElevenLabs prize at an open-source AI hack day. Built a voice-guided tasting agent combining YOLOE + CLIP product recognition with a LangGraph conversation agent and real-time speech.
More details at: Blog post | GitHub

1st Place – Hackapizza 2.0: Agent Edition
Datapizza · Milan · February 28 – March 1, 2026
Won an AI agents hackathon competing against 120 selected participants from across Italy. Built a real-time multi-agent system for autonomous restaurant management.
More details at: Blog post | Datapizza blog

MAIN PROJECTS

ItColBERT
Information Retrieval · NLP
First Italian-specialized late-interaction (ColBERT) retriever for semantic search and RAG. Built on ModernBERT (~135M params), trained with supervised contrastive learning and

knowledge distillation. Outperforms multilingual late-interaction alternatives on Italian benchmarks.

More details at: HuggingFace | GitHub

PhysioSmart – Telerehabilitation app with Real-Time exercise detection

Computer Vision

Built and trained an LSTM neural network enabling real-time detection of exercise correctness.

More details at: Blog post

LLM-based Chatbot with PDFs

Generative AI

Retrieval-Augmented Generation (RAG) chatbot that answers questions from personal PDF documents.

More details at: Blog post

AI Agents – Real-time Voice Agent with custom tools

Generative AI

Voice-based AI agent that responds in real time and leverages custom tools to perform actions.

More details at: Blog post

PUBLICATIONS

Nello E. *ItColBERT: An Italian-Specialised Late-Interaction Retriever.* arXiv. 2026. DOI: 10.48550/arXiv.2609.26856

Nello E. et al. *AI-Assisted Delphi for RNA-Based Medicines: A Controlled Comparison of Human and Automated Revision.* JMIR Medical Informatics. 2026. DOI: 10.2196/90228

PUBLIC SPEAKING

Model Context Protocol: standardizzazione nell'era degli agenti AI

GDG Firenze · Florence · 05/03/2026

Talk on MCP standardization for AI agents at Google Developer Group Firenze meetup, 42 Firenze. Covered architecture, custom MCP server development, and multi-agent orchestration with a live demo.

More details at: Blog post | GDG event page

AI for predictive diagnosis

Naples · 16/01/2026

Speaker in a CME course for clinicians on the role of AI in supporting early diagnosis.

More details at: Blog post

AI for Technical Writing and Productivity Enhancement

Webinar · 13/12/2025

Session for clinicians and patient advocacy organizations on leveraging AI tools to improve writing efficiency.

AI-Augmented Delphi: Design and Evaluation of a Human-Aligned LLM Workflow

Milan · 04–05/11/2025

Oral presentation at the Spoke 9 Congress on an AI-assisted workflow for scientific consensus in RNA therapeutics.

More details at: Blog post | Spoke 9 Congress

AI for Medical Awareness Campaigns and Events

Webinar · 08/09/2025

Session for clinicians and patient advocacy organizations on AI in medical communication and event planning.

How LLMs work & how to interact with them

Florence · 19/12/2024

Introductory internal seminar for colleagues on the fundamentals and effective usage of Large Language Models.

SKILLS

Languages

Italian (native) · English (B2)

Technical

Python · C/C++ · Java · Machine Learning · Deep Learning · Generative AI · Computer Vision · Relational & NoSQL Databases

Other

Driving Licence B
